The Department of Community Affairs cordially invites you and your staff to the **2005 Disaster Recovery Workshops**. These workshops offer local officials a unique opportunity to learn more about state and federal programs their communities may be eligible for to aid and fund important recovery projects across Florida.

State and federal resources often go untapped, and these events will encourage exploration of programs available to Florida's most impacted counties. The workshops will help attendees locate and apply for funding sources in critical areas such as economic development, infrastructure needs, mitigation measures and housing and residential assistance programs.

Registration, agenda and detailed location information are available at:
www.dca.state.fl.us.

Sincerely,

A handwritten signature in black ink that reads "THADDEUS L. COHEN". The signature is written in a cursive, slightly slanted style.
